Position Vacant – Mobile Processing Unit Operator

Applications for suitably qualified persons are sought for the position of Mobile Processing Unit Operator.

The position is Perth or Kalgoorlie based, for the operation of Mobile Processing Units used in the delivery of explosives down blast holes. Typically, the units will be operated on customer mine sites on an 8/6 roster. Experience in the field is essential. The company specializes in tailored products and prides itself on exceptional customer service. Closing date for applications is close of business 31 July 2017.

Essential:

- Experience in operation of multi product MPU's;
- Experience with the maintenance and repair of MPU's;
- Experience with pneumatic and hydraulic power and control systems;
- Dangerous Goods Security Clearance (Unsupervised Access);
- HC Class Driver's License;
- Dangerous Goods Driver's License;
- Proven ability to troubleshoot and manage problems quickly and efficiently;
- Ability to pass full medical and D&A testing;
- Establish and maintain beneficial relationships with internal and external stakeholders;
- Demonstrate a strong safety ethic at all times through appropriate behaviour;
- Current CV with reputable industry references.

Relevant experience may be checked through contact with referees.

Preferred:

- Experience in the operation of ANE manufacturing plants;
- Experience in working with Class 1 and Class 5 Dangerous Goods products;
- Shotfirer's License.

The applicant must have the following attributes:

- Self-motivated
- Excellent customer service skills
- Ability to work under pressure
- Good communicator
- Innovative thinker
- Reliable
- Punctual
