Nitro Sibir Australia specialises in tailored products and prides itself on exceptional customer service. Closing date for applications is COB Sunday, 11<sup>th</sup> of April 2021.

### Technical Competencies:

- Experience in operation of multi-product MPU's
- Experience with the maintenance and repair of MPU's
- Experience with pneumatic and hydraulic power and control systems
- Dangerous Goods Security Clearance (Unsupervised Access)
- HC/MC Class Driver's Licence
- High Risk Forklift Ticket
- Dangerous Goods Driver's Licence
- Proven ability to troubleshoot and manage problems quickly and efficiently
- Ability to pass full medical and D&A testing
- Ability to establish and maintain beneficial relationships with internal and external stakeholders
- Demonstrate a strong safety ethic at all times through appropriate behaviour
- List of other current licences and tickets
- Experience in the operation of ANE manufacturing plants (preferred)
- Experience in working with Class 1 and Class 5 dangerous goods products (preferred)
- Shotfirer's licence (preferred)

### Role Competencies:

- Ability to work within a team environment
- Self-motivated
- Excellent customer service skills
- Ability to work under pressure
- Good communicator
- Innovative thinker
- Reliable
- Punctual

Pre-employment considerations include a health assessment, drug & alcohol screening and providing a National Police Clearance.

Relevant experience may be checked through contact with referees.

Please send a letter expressing your interest to Peta Lassey, Manager Goldfields Operations.
